

# ASSOCIATION NOTICES

VOL :1/06/19

## Online Application Forms

Hope you're still enjoying our online application system. We Welcome your suggestions as to where we can improve to make our system better and up-to-date with the current technology.

## Old-Completed forms

Completed forms have been stored on the server from 2016, and now we are running out of space. We decided to only keep them for maximum of 2 months, we will delete anything older than that. If you want to download them for record keeping purpose please do so within 60 days.

However should you forget to download in time we can send you a copy from the cloud.

## Something New

SARACCA members requested that the company also receive a copy of a renewal reminder, so that they're aware of which practitioner's licenses are due for renewal and they can renew on time.

So we've added a new field '**Company Details**'. If this will also benefit your industry you are welcome to use it.

For the existing Practitioners, you can provide us with the contact details for company we will manually add it.

## SAQCC Gas Newsletter

- Should you have anything that you like us to put on our Newsletter please send it to us, things like:
  - ⇒ Standards updates
  - ⇒ Upcoming events
  - ⇒ Anything that will benefit practitioners
