WHAT'S NEW?

FRESH DIRECTION

EDDIE COOKE, NEWLY APPOINTED DIRECTOR AT SAQCC GAS

Eddie Cooke started his career as Mechanical Engineer for 5 years thereafter, he started LPG business 1998 which included running vehicles on LPG and he's still involved with LPG distribution. After natural gas was introduced into South Africa in 2004, he got involved with the conversion of vehicles to run on CNG. He's involved in CNG and all its technologies for last 15 years. He was involved with the first Biogas to Vehicle fuel project that was completed and operational in 2010.

He started a consultant company specialising in CNG, LNG and Biogas consultation services, Specialising in upgrading of biogas to be used as compressed biogas for industrial and vehicle fuel applications. He's currently consulting in Coal Bed Methane projects in and around Southern African countries to use CNG and LNG technologies to take stranded gas to market. Working on biogas projects in DRC Congo, Kenya, Botswana and Rwanda, CNG and LNG projects in Tanzania, Mozambique and South Africa. He's also working on LNG and Biogas standards for South Africa. Standards Chairman for alternative fuels for vehicles at SABS from EV to Hydrogen this would assist NAAMSA and RMI in the automotive industry for new technology application in South Africa manufacturing industry.

He's also currently serving as Technical Director of Southern African Biogas Industries Association (SABIA) NPC and Southern African Gas Association (SAGA)

In he's private time enjoy time with family and enjoy wild life and travelling.

Eddie Cooke has been appointed as Director at SAQCC Gas

USE OF THE SAQCC GAS LOGO

After our previous announcement about prohibiting the use of SAQCC Gas logo, we received numerous requests from industry as to the matter and the Board has reconsidered.

The SAQCC Gas has formalised guidelines that needs to be complied with by the applicant and an agreement to be concluded by the applicant prior to formal permission being granted as to use of the logo.

Using SAQCC Gas logo without following the procedure will have consequences. The application and agreement can be obtained from the SAQCC Gas offices.
